WORK EXPERIENCE

UX/UI Designer / Rocket Mortgage

2025–Present /Full-time

- Led the end-to-end redesign of Bid Desk dashboard, modernizing complex mortgage loan management workflows across search, filtering, multi-loan bidding, and pair-off functionality.
- Collaborated cross-functionally with product and web development teams to translate complex Bid Desk requirements into scalable, user-centered dashboard experiences.
- Translated complex mortgage servicing requirements into intuitive UX flows and high-fidelity Figma prototypes, improving usability for users managing large volumes of loan data.
- Applied Rocket’s design system and brand standards to create a scalable, consistent interface that improved visual hierarchy, task clarity, and platform usability.

UX/UI Designer / Mr.Cooper

2024–2025 /Full-time

- Led UX/UI redesign efforts for a B2C digital 1003 mortgage application, modernizing borrower-facing workflows and improving the experience across application intake, co-borrower management, and submission.
- Designed scalable UX patterns for adding and managing multiple co-borrowers, supporting more complex borrower scenarios within the digital mortgage application flow.
- Created UX solutions for mortgage officer user flows, helping internal users review application details, identify missing information, and move borrowers through the loan process.

UX/UI Designer / Citibank

Feb 2021–2024 / Full-time

- Served as the lead designer for Citi’s Partner Portal, guiding the end-to-end experience and collaborating with product and engineering teams from concept through launch.
- Teamed up with developers and product managers to establish developer API catalogs, documentation, API sandbox, and product management.
- Partnered closely with developers to design and support Citi’s Partner Portal, enabling 40,000+ developers across 14 financial partners to onboard, access performance data, and integrate with APIs handling 150M+ monthly calls.
